

# TAGSON®

Heavy socks tagging solution

PS-2/PLUS

Reduce packaging waste

Simplify workflow

Portable machine

This pneumatic machine is portable, needs only air supply.

Super long needle

Package socks up to 100 mm (3,9 inch) in thickness.

Working surface with guides

Size of the working surface and guides is adjusted to the dimensions of the product.

Speed adjustment

Adjust speed and pressure of the machine. Machine can do 1 cycle in 3 seconds.

Laser markings

Adjust laser markers for the exact breakpoint.

Safety control

Two-hand manual safety control according to the standards of the European Union.

**NEW** innovative automated hosiery machine for tagging socks up to 100 mm (3,93 inch) in thickness.

One machine for all kind of socks materials and thickness. First machine in the world with super long needle 101 mm length. (81 mm, 3,18 inch effective length). During the process, the specially designed 101 mm long Ball Point needle pushes the fabric away, leaving no damage on the socks.

Using 10,000 IndES fasteners per roll in comparison to 100 fasteners per clip increases productivity, and labor costs may be reduced.

## Tag thick packs effortlessly

New automated PS-2/PLUS can pack up to 100 mm (3,93 inch) sock thickness, depending on packaging methods. Thickness range depends on card closing method and packaging method.

### → UP TO 100 mm

One machine, a wide range of thickness: from 15 mm (0,59 inch) to 100 mm (3,9 inch)

### → BALL POINT NEEDLE

Innovative Ball point needle – a specially designed needle for sock tagging

### → ELASTIC STAPLES

Elastic staples made from polyurethane are stretchable and do not break if socks are thicker than the length of the staples. No more constantly changing fasteners each time you change thickness. Staples come from 15 mm – 150 mm length.

### → 10.000 PIECES

Standard fasteners have 100 pcs on a clip, while Elastic Staples come in a roll of 10,000 pcs.

### → SPEED

One cycle in 3 seconds.

## Fast and reliable

Tagson automated PS-2/PLUS is able to do a packaging cycle in less than 3 seconds, making it one of the fastest machines on the market with such a method. **NO HUMAN EFFORT NEEDED.** It saves time and steps in packaging production, therefore decreasing downtime. It reduces operator workload and associated costs.

### PRODUCT SPECIFICATION

**Needle length:** 101 mm (3,97 inch)  
**Effective length:** 81 mm (3,18 inch)  
**Thickness range:** 15 mm – 100 mm  
**Machine dimensions:** 550 mm × 500 mm × 1300 mm  
**Pressure:** 40-80 psi  
**Weight:** 30kg  
**Speed:** 3 seconds per cycle

### WARRANTY AND CUSTOMER SERVICE

We offer 6 months warranty and 24/7 customer service worldwide.

## Why choose Tagson?

✓  
24/7 worldwide customer service

✓  
Six-month worldwide warranty

✓  
CE & European premium quality

✓  
Highly trained engineers with 20 years of experience

✓  
Free-of-charge testing service

✓  
Custom configuration: each machine is made individually
